WHAT'S DOING

R. S. Pyle, your Telephone Manager in Torrance

Ever counted the steps from the kitchen to your phone? Try it. 15 steps? 20? 30? Even if you get only 3 calls a day during kitchen hours, a kitchen extension would save you 16,000 to 33,000 steps a year! It lets you go right ahead with your work when the phone rings, too. No turning off the stove and running through the house to answer the telephone. And if you're planning to move soon, you can save money on the installation cost of extensions. The charge to move your present phone covers the installation cost of all the extensions you'll need in your new home.

Traffic can be rough. And if you have business in, say, Long Beach, or an errand to run to San Fernando, chances are you'll be in a scene like the one shown above. A good way to avoid it is to make your trips by telephone. Traveling by phone saves time, trouble — and money. Pacific Telephone
